Re: Recommendation for Benas Burdulis

MOS

To Whom It May Concern:

It is with the highest recommendation that we offer a review of Benas Burdulis during his time at MOS located in New York City. Benas worked in our office as a designer during internship while still a student at Design Academy Eindhoven. It is rare for an architecture office to take on such a student, who from the first day understood the type of work and ambitions we are trying to achieve. Benas is an innately talented and thoughtful designer. His work was always extremely well done from start to finish, and he was able to work independently as well as part of a team. He truly helped foster a more intense design environment within the office. His contributions to our office were diverse from material research and mock ups, to the completion of carefully crafted models. His expressive and exceptional intelligence with developing concepts, and clear articulation of ideas through making enabled the office to develop a new level of design and focus. His kindness, humor, and intensity make him an extraordinary person and designer. I have no doubt that he will be an invaluable team member, and we would be happy to have him return to our office. Please don't hesitate to contact me if you should need any additional information.

Best regards,

Hilary Sample
